To Whom It May Concern:

I am very pleased to provide comments on the presentation that Jay Wommack made at the 2009 Fleet Safety Council's Annual Educational Conference.

Jay's presentation topic was Training, specifically innovative methods of training staff. Jay's style is highly engaging, energetic and he has a wonderful way of making, what could have been a rather dull subject, fun and interesting.

In addition to his method of delivery, Jay's presentation was full of material that our delegates could use immediately and in the future. Jay added specific detail about CSA 2010 and how that fits into the training and development piece.

I have absolutely no hesitation in recommending Jay, if your organization needs a high energy, exciting and above all, relevant, speaker.

Yours in Safety,

Lori Van Opstal CPC
Conference Chair
Fleet Safety Council
